About Me

Hello my name is Vian. I am a fresh graduate of informatics majoring in university. I really like the world of programming since I was little. I started learning many programming languages such as java, php, javascript, goLang and others.

Experience

Jan 23 - now | Flutter Developer | Self Project

Developing applications to be published on Play Store
<https://play.google.com/store/apps/developer?id=kodein>

Jan 24 - now | Backend Developer | PT Stechoq Robotika Indonesia

As a backend developer on a large project, I design and implement scalable system architecture, manage APIs, and handle database management. I ensure security, integrate external services, and address technical issues. I also collaborate with frontend developers and create documentation for future maintenance.

March 2024 | Freelance | RoomIT

Desain ui ux for decentralized VPN app

Augst 23 - Dec 23 | Mobile Developer | PT Stechoq Robotika Indonesia

Development of mobile application and hijaiyah letter detection model for answer correction system

Feb 23 - Jun 23 | Flutter Developer | PT Stechoq Robotika Indonesia

Development of Sembada Sinergi Indonesia Marketplace (Beliternak)

Education

2020 - 2024 | S1 Universitas Janabadra | Informatics

I graduated with a GPA of 3.83 and cum laude title. In my lectures I learned things related to the world of informatics.

Kemampuan

Mobile Dev, Backend Dev, Frontend Dev, Dev ops.
